

Safety Project Evaluation

Order ID:	41000076579
Project ID:	05-20-62123 (TIP #HS-2005A)
Signal ID:	n/a
Location:	SR 1602 (Main Street) at SR 1207 (Spring Street)
GPS Coordinates:	36.310027, -78.587328
County:	Granville
City:	Oxford
Division:	5

Countermeasure(s):	Construct a Mini-Roundabout including pedestrian upgrades
Estimated Project Cost:	\$278,000
Completion Date:	12/15/2021

	Start Date	End Date	Length
Before Period	3/1/2017	9/30/2021	4y, 7m
Construction Period	10/1/2021	12/31/2021	0y, 3m
After Period	1/1/2022	7/31/2026	4y, 7m

Analysis Criteria:	Treatment data consists of all crashes at the intersection of SR 1602 and SR 1207 with a Y-line of 150'
--------------------	---

Target Crashes:	Frontal impact crashes including the following types: • Left-turn, same roadway (LTSR) • Left-turn, different roadway (LTDR) • Right-turn, same roadway (RTSR) • Right-turn, different roadway (RTDR) • Head-on • Angle

Items for Discussion

- The only injury crash in either period was a before-period Class C rear end at 8:28 PM on 12/6/2019, in which a WB vehicle on E Spring St struck a vehicle stopped at the stop line at Main St.
- Before-period Target Crashes: a 12/20/2017 angle crash at 2:10 PM in which an EB vehicle on Spring St ran the stop sign and struck a NB vehicle on Main St; a 7/3/2018 right-turn crash at 5:53 PM in which a SB vehicle turning from Main onto W Spring was struck by a WB through vehicle; and a 5/26/2021 left-turn crash at 11:18 AM in which an EB vehicle turning from Spring onto Main was struck by a WB through vehicle. All three were property damage only.
- After-period Target Crashes, both inside the circle and property damage only: a 2/14/2022 angle crash at 9:14 AM in which a WB vehicle on Spring St entered the circle and struck a SB vehicle already in it, and a 1/8/2025 right-turn crash at 9:30 AM in which a vehicle entering from E Spring St through the yield struck a NB vehicle in the circle. The third after-period crash was a 9/20/2024 sideswipe at 5:23 PM by a SB vehicle entering the circle.
- Seven Initial Study crashes were deleted after report review: six backing or parked-vehicle crashes in the Post Office angled parking row on Main St, which begins about 140 ft north of the junction, and one parked vehicle struck mid-block in front of Oxford Baptist Church. Each was coded at the intersection, but the diagram or narrative places it beyond 150 ft.
- 28 additional reports were reviewed and none added; crashes wholly within the Post Office, Library or SunTrust parking lots were excluded, and the rest were at Little John St, Williamsboro St, Orange St, MLK Jr Ave, Park Dr or on rural SR 1602.
